DETAILED ACTION

Amendment to the specifications received on 03/25/09 have been considered and entered.

Allowable Subject Matter

Amendments to claims received on 03/25/09 have been considered and entered.

Claims 1, 12, 14, 16, 18 and 24-27 are allowed.

The following is an examiner's statement of reasons for allowance: EP 0364803 A1 (EP '803) teaches an injection molding method for manufacturing a resin molding by charging a resin composition comprising fibrous filler and crystalline resin at a molding temperature lower than the melting temperature and a heat treatment after shaping the article.

However, EP '803 fails to teach the die temperature is in a range of Vicat softening point -20°C to less than a melting point of the resin and that after the resin composition is shaped, holding the temperature of the die for a predetermined time in a temperature range from a crystallization temperature -10°C to the crystallization temperature + 10°C of the crystalline resin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
